Supplementary Contribution to Project 10.2200

1. The figures below are our current estimates. Although they have been computed for our initial contribution to MIE 11-4-59, they are preliminary in that changes are expected in the near future.

2. Recomputation, to date, has covered the years 1958-64. Thus, our earlier contribution (on 29 June) still represents our best estimates for the period 1950-57. The estimates for 1965 have been changed to agree with the current estimates but are still -- in aggregate -- no more than simple projections.

Year	Total Expenditures		Expenditures for Personnel		Expenditures for the Machinery Component
